

State Organics Law

SB 1383

Frequently Asked Questions

FAQS

What is SB 1383?

SB 1383 is a statewide effort to reduce emissions of short-lived climate pollutants by reducing the amount of compostable materials disposed in landfills by 75% by 2025.

Why am I receiving a new blue or green container?

This law requires waste generators, including businesses, multifamily complexes, and residents to participate in City-provided programs. If you are receiving new containers, a Zero Waste Representative has assessed your property for waiver eligibility and determined that your account receive organics and/or recycling bins in order to be in compliance with SB 1383.

What goes in the blue container?

Recyclables such as metal, aluminum cans, glass, plastic containers type #1, #2, & #5, cardboard, paperboard, and mixed paper.

What goes in the green container?

Yard trimmings, such as flowers, leaves, weeds, grass clippings, food-soiled paper, such as napkins, and food scraps, such as fruit & vegetable scraps.

Do I have to pay for these services? How much does it cost?

Non-compliant accounts will be automatically enrolled in recycling and organics services.

Great news, monthly collection rates are half to three-quarters the cost of solid waste collection rates starting at \$18.34 for 1-96 gallon recycling cart and \$37.35 for 1-32 gallon organics cart serviced once per week.

I don't want the service.

Can I cancel?

Your property must be assessed prior to any service adjustments. If you would like to reassess for waiver eligibility, reach out to a Zero Waste Representative at zerowaste@nasaservices.com

How do I train my tenants/staff to use the bins correctly?

NASA Services offers free training and can provide information on acceptable materials, common contaminants, and proper signage. Contact a Zero Waste Representative to set up a training.

Where can I find more information?

Contact your NASA Services by phone at 888-888-0388, by email at zerowaste@nasaservices.com. You can also visit our website at nasaservices.com.
